

## Products and Pricing

### RBD Products

The following products are produced and sold directly by the Refining Business Division :

**Medium N-Paraffins Feedstock** : this is typically a high-purity linear paraffins, hydro-treated kerosene, which in turn are mainly produced as intermediates in the production of detergent, plasticizer and similar materials.

The other products are produced by the Refining Business Division but sold by other business divisions :

1. Petroleum fuel products : Please refer to Fuel Oil.
2. Petrochemicals : Please refer to Petrochemical Products.
3. Solvents and Chemicals : Please refer to SNC Products.
4. LPG : Please refer to LPG Products.
